A simple all natural product that will alleviate the symptoms and problems associated with asthma and other allergies."

ASTHMA AND OTHER ALLERGIES CURE

Place 50 grammes of salt (Sodium Chloride - NaCl) containing from 25 to 40 milligrammes of Iodine - I, per kilo in 500 millilitres of water. Stir until dissolved.

Place solution in a fine mist sprayer.

Method:

Expel all air from lungs without causing discomfort. The while inhaling through the mouth, spray solution in to open mouth. Spray container nozzle to be held 20cm from mouth and to be set for a fine mist spray.

Each breath to be a maximum amount without discomfort, while inhaling spray. (Possibly more than one squeeze on spray device will be necessary during the intake of breath.)

Exhale slowly.

2

(11) 27462/92

-2-

Then take three normal breaths.

Repeat six times per session.

Treatment to be administered twice daily with twelve hours between doses for three days.

This invention relates to the cure of asthma, eliminating the need for continuous use of expensive medications.

005

There are many medications available for the relief of the asthma symptoms, but these are for relief only, and do not provide a cure.

010

Medications available are potentially dangerous and doctors prescribing current asthma medications, warn patients of the dangers

015

of exceeding the recommended doses. These include nausea, giddiness, weakness and the tremors.

020

These problems are overcome by the invention, as it consists of natural ingredients only; is a once only course of inhalant, taken morning and night for three days, effecting the cure.

025

This does not require any follow up medication.

030

This invention is prepared in liquid form and is administered in a fine spray. Any device capable of delivering a fine mist spray is adequate to administer solution to the patient.

035

With a recommended "dose" of 10ml of solution propelled by compressed air from a hand operated mist sprayer - per breath, e.g. 60ml per session twice daily, the cost of administering the cure is substantially lower than the current CFC propelled asthma reliefs currently being prescribed.

040

"The claims defining the invention are as follows:-

005 A simple all natural product that will alleviate the symptoms and problems
associated with asthma and other allergies."

010 **ASTHMA AND OTHER ALLERGIES CURE**

015 Place 50 grammes of salt (Sodium Chloride - NaCl) containing from 25 to 40
milligrammes of Iodine - I, per kilo in 500 millilitres of water. Stir until
dissolved.

020 Place solution in a fine mist sprayer.

Method:

025 Expel all air from lungs without causing discomfort. The while inhaling
through the mouth, spray solution in to open mouth. Spray container nozzle
030 to be held 20cm from mouth and to be set for a fine mist spray.

Each breath to be a maximum amount without discomfort, while inhaling
035 spray. (Possibly more than one squeeze on spray device will be necessary
during the intake of breath.)

040 Exhale slowly.

Then take three normal breaths.

045 Repeat six times per session.

Treatment to be administered twice daily with twelve hours between doses for
050 three days.

ABSTRACT

A cure for asthma based on totally naturally occurring products found in the normal household kitchen.

A known concentration of Sodium Chloride [NaCl] (normal household Iodised Salt) dissolved in water and administered in a simple hand operated pump spray.

Totally environmentally safe.

Contains NO CFC's unlike most other asthma treatments currently on the market.
